Shock waves and radial pressure waves: Time to put a clear nomenclature into practice.
Achim Loske Ph.D., and Daniel Moya, M.D.

Quality standards and techniques for the application of focused shockwaves and radial pressure waves in musculoskeletal disorders.
José Eid, M.D., and Daniel Moya, M.D.

Shockwave therapy and anesthesia: what evidence is there?
Paulo Dias Santos, M.D. Ph.D., Bruno Schiefer dos Santos, M.D., and Nacine Salomao Barbachan Mansur, M.D., Ph.D.

The SUBA protocol in the new era of orthopaedic sports injuries treatments.
Pedro Bernáldez Domínguez, M.D., Ph.D., and Ignacio Dallo Lazzarini, M.D.

Non invasive physical regenerative therapies: Laser therapy, mechanism of action and results.
Leonardo Guiloff, M.D., Ondrej Prouza, M.A., Dragana Žarković, Ph.D.

Fundamentals of the treatment of male erectile dysfunctions with low intensity shock waves.
César Eisner, M.D., Mauricio Salas M.D., Daniel Moya, M.D.

New trends in ultrasound-guided musculoskeletal injuries approaches.
Pedro Bernáldez Domínguez, M.D., Ph.D., and Ignacio Dallo Lazzarini, M.D.

Ultrasound intervention techniques to treat patellar tendinopathy.
Paulo German Terán M.D., Estefanía Anabel Lozada M.D., Juan Felipe Giraldo M.D.

Plantar fasciopathy, general concepts, shock wave treatment and other additional therapeutic considerations.
Osvaldo Vale Toledo, M.D.

Muse cells in orthobiologics: are they the future?
Eduard Alentorn-Geli M.D., MSc., Ph.D., FEBOT, Patricia Laiz BSc., MSc., Alfred Ferré PT., MSc., Roberto Seljai M.D., Ph.D., David Barastegui M.D., MSc., Ph.D., Pedro Álvarez-Díaz M.D., Ph.D., Xavier Cuscó M.D., Cristina Sánchez M.D., Luis García M.D., Montse García-Balletbó M.D., Ph.D., and Ramón Cugat M.D., Ph.D.

Introduction to bioethics: the boundary between research and clinical practice.
Graciela Moya, M.D., Ph.D.

Case report: Focused shock waves as a treatment option in failed rotator cuff calcification surgery.
Daniel Moya, M.D.
